Lookout Working Worksite Protection for Lithgow Yard Box routine network maintenance activities

DOCUMENT NO.	D2022/2823
WORK DESCRIPTION	Routine network maintenance activities
WPP Number	WT3B 10178
SCOPE:	This SWI is applicable for the worksite protection arrangements using lookout working concerning routine network maintenance, defect management and repair of assets within the limits specified below and in the attached plan.
	Work activities include: • Routine preventative and corrective work such as inspections and maintenance as appropriate for the type of protection being applied as part of this plan.
AUTHORISATIONS:	Protection Officer: Protection Officer Level 1 or higher Lookout: Handsignaller Level 1 or higher, Protection Officer Level 1 or higher.
SAFETY CONTROLS – Lookout Working arrangements:	The nominated worksite location for Lookout Working includes the Up Main West line, Down Main West line, Browns No 1 Siding, No 1 Dock Siding, Departure Road between 96.2 Signal to 7A/4/7B Signal / End of Terminal line. The nominated worksite location for Lookout Working is a moving worksite, where workers are working along the track within the limits of the nominated worksite location up to the where the Lookout is established. As work moves along the track, the Protection Officer must assess the new location and: Establish and/or re-establish Lookouts as required to watch for approaching rail traffic from all entry points Designate and instruct which safe places the workers are to use as the work is completed along the work route within the worksite limits.
PRESTART REQUIREMENTS:	Protection Officer assessment checklist must be completed before instructions in this SWI are followed. Tools and equipment required: Protection Officer requires a phone to contact the Signaller. Lookouts require a high-visibility arm sleeve and a whistle / horn.

for Lookout Working.

Lookout Working Worksite Protection for Lithgow Yard Box routine network maintenance activities

INSTRUCTIONS:

- 1. Protection Officer briefs workers about the worksite protection arrangements.
- 2. Protection Officer contacts **Lithgow Yard Box Panel** and tells the Signaller about the use of Lookout Working between **96.2 Signal to 7A/4/7B Signal / End of Terminal line** on **all tracks**
- 3. Workers enter rail corridor via gate W00 155.328 D, located on the Down side off Gas Works Lane.
- Protection Officer places Lookouts watching for rail traffic approach in both directions at the designated locations.
- 5. Workers start work up to where Lookouts are located or where they can't effectively warn workers.
- 6. Workers move to a safe place.
- Repeat steps 4 6 until workers complete work from 96.2 Signal finishing at 7A/4/7B Signal / End of Terminal line.
- 8. Once work is complete, all workers move into a safe place.
- 9. Protection Officer recalls Lookouts.
- 10. Protection Officer contacts the Signaller at Lithgow Yard Box Panel to end Lookout Working

ADDITIONAL DETAILS

Two-way running / multiple entry points

Lithgow Yard is a two-way running area. Rail traffic movements can occur in any direction.

A Lookout is placed watching both directions and must provide warning for any rail traffic approach. Workers must move into a safe place when Lookouts provide a warning regardless of which line the rail traffic is approaching on.

Obstruction to Lookout's Minimum Sighting Distance

Lookout must provide warning to workers when Minimum Sighting Distance is impeded by rail traffic on adjacent lines. All workers must remain in a safe place until Lookout can re-establish Minimum Sighting Distance.
