

DOCUMENT NO.	D2022/10062
WORK DESCRIPTION	Routine Maintenance activities
WPP Number	CC12BWS 10001
SCOPE:	<ul> <li>Routine maintenance activities performed by Central Coast Territory maintenance teams.</li> <li>on the Up Main North and Down Main North lines between 149.480 km to 151.076 km</li> <li>that does not involve the use of tools or equipment, or</li> <li>using tools which can be easily and immediately removed from the track by one person and are light, non-powered hand tools, or light battery powered tools or devices.</li> </ul>
AUTHORISATIONS:	<ul> <li>Protection Officer, ATWS Operator (Operator) &amp; ATWS Installer (Installer):</li> <li>Protection Officer (PO) Level 1 – 4, and</li> <li>WATWS – Wireless Automatic Track Warning System</li> <li>Dedicated Lookout: (PO) Level 1 - 4, or Handsignaller 1 - 2</li> </ul>
PERSONAL PROTECTIVE EQUIPMENT	High visibility vest, boots, high visibility lookout sleeve
SAFETY CONTROLS – Lookout Working (ATWS) arrangements:	<ul> <li>Automatic Track Warning System (ATWS) - provides visual and audible warning for workers</li> <li>ATWS sensor for Down direction running on the Down Main North line at 149.480 km</li> <li>ATWS sensor for Up direction running on the Up Main North line at 151.076 km</li> <li>Dedicated lookout(s) at the worksite for unsignalled movements.</li> <li>IMORTANT!</li> <li>This document must not be used to install or adjust the ATWS sensors</li> <li>All sensors in the plan and shown on the diagram must be connected to transmit a warning</li> </ul>
PRESTART REQUIREMENTS:	<ul> <li>Refer to D2015-45354 Wireless ATWS (Automatic Track Warning System) to install or remove sensors</li> </ul>
FURTHER INFORMATION:	Refer to "D2015-45354 Wireless ATWS (Automatic Track Warning System)" for detailed instructions to set-up, connect, test and operate the ATWS system with pre-installed ATWS sensors <ul> <li>NLA 316 Sulphide Junction</li> </ul>

Required ATWS Equipment				
Item	Description	Quantity		
Aerial	Telescopic Aerial	3		
Assembly Kit	Orange Bag with Tools	2		
Battery ZA24-2.9	Small battery for Junction Box & Transmitter	8		
Device Frame	Protective Frame	3		
F500-AB Junction Box	Receiver Device	2		
F500-SEN Train Sensor	Sensor	2		
Housing for Aerial	Housing for Telescopic Aerial	3		
KF5-5 Extension Cable	Extension Cable (5m) for F500-SEN to F500-AB	0		
Mobile Backpack	Harness for Device	0		
Pouch	Pouch for small battery	4		
Tripod	Tripod for Device	3		
ZFS Radio Transmitter	Radio Transmitter Device	2		
ZPW Warning Unit	Control & Warning Device	1		

#### Safe Work Instruction

### ATWS Worksite Protection for Cockle Creek routine network maintenance activities

Protection Officer's name:				
his document has not expired 12 mor	ths beyond the issue date.			
WI details and protection arrangemer cation, including:	ts have been reviewed and validated for the	assessed worksite		
On-site safety assessment ha	s been completed for relevancy of works beir	ng undertaken		
<ul> <li>The required protection detail SWI</li> </ul>	s, environment and tasks are unchanged from	n the details of this		
• All boxes have been ticked if	applicable and crossed if not applicable			
All fields have been complete	d			
Corridor Safety Number	Protection Officer Signature	Date		

#### Warning

If an above item does not apply, the Protection Officer must not use this Safe Work Instruction. A new worksite protection plan must be completed in accordance with NRF 014 Worksite Protection Pre-work briefing and NRF 015 Worksite Protection Plan.

INSTRUCTIONS:	<ol> <li>Workers enter the rail corridor via access gate N00 150.394 D</li> </ol>
	2. Use assets to validate worksite location on Up and Down Main North lines between <b>149.480 km</b> to
	151.076 km
	3. Conduct WP Pre-work briefing to set-up ATWS.
	4. Tell Signaller at Broadmeadow Panel about the use of lookout working with ATWS.
Tick if used	<ol> <li>Access Down Cess 149.480 km, verify sensor label &amp; connect to sensor cable, calibrate with test plate, connect and turn on the transmitter.</li> </ol>
Tick if used	<ol> <li>Access Up Cess 151.076 km, verify sensor label, connect to sensor cable, calibrate with test plate, connect &amp; turn on transmitter.</li> </ol>
	7. Place warning system on same side of tracks if working on one track only within sight & hearing of
	workers, conduct siren & light self test, & connect to transmitter(s).
	8. Record first rail traffic movement test for each sensor on ATWS Check-sheet.
	9. Conduct WP Pre-work briefing for lookout working with ATWS and confirm workers have seen and
	heard the warning.
	10. Start work when advised by the PO, and move to the designated safe place when warned.
	<ol> <li>When work is complete, and workers and equipment are in a safe place, turn off and pack up warning unit</li> </ol>
Tick if used	12. Access Down Cess to turn off and pack up transmitter unit(s).
Tick if used	13. Access Up Cess to turn off and pack up transmitter unit(s).
	14. Egress Cess for all workers to leave the rail corridor via access gate N00 150.394 D
	15. Tell Signaller at Broadmeadow Panel when work is completed and the workers and their equipment are clear of the Danger Zone.

Tick if used

(This page is optional and may be separated and given to the assigned operator to assist set- up of ATWS equipment. Refer also to Refer to "D2015-45354 Wireless ATWS (Automatic Trak Warning System)" for detailed instructions.)

	Setup Stage 1: Checklist for ATWS transmitter and sensor	
Step	Task Description	Installer Check
1	Verify Track Label for location of sensor as per the Protection Diagram and	
	Photos in this document	
2	Confirm equipment is within inspection date	
3	Sensor direction is per Worksite Protection Diagram and photos in this	
	document	
4	Connect sensor cable to junction box	
5	Confirm all batteries are fully charged	
6	Connect junction box to ZFS using channel T1-T4	
7	Commence calibration and automatic self- test	
8	Perform function test using test plate	
9	Confirm transmitter booked in to correct T- channel (T1-T4)	
10	Select & confirm channel for the radio transmitter (AU3 OR AU4)	
11	Perform worksite warning test using test plate	
12	Lock device & remove key	

Setup Stage 2: checklist for ATWS worksite warning unit		
Step	Task Description	Operator Check
1	Confirm equipment is within inspection date	
2	Confirm Audible level	
3	Confirm and set Radio Channel for Warning unit	
4	Book in ATWS sensor 1	
5	Book in ATWS sensor 2	
6	Perform Worksite Warning Test with all ATWS sensor	
7	Ensure the workers have seen the visual warning and heard the audible warning	
8	Select and Confirm Channel for the Radio Transmitter	
9	Confirm worksite warning unit is operational with Installers and advise them to	
	lock devices & remove key
