

SAFE Notice *2024* 207

SUTHERLAND - WATERFALL - HELENSBURGH

On Saturday night/Sunday morning, 15 – 16 June 2024

On Sunday night/Monday morning, 16 - 17 June 2024

In conjunction with Special Train Notice No. 1361-2024 the following Safeworking arrangements will apply:

ATP TRAIN TESTING

TRACK POSSESSION 1

ATP train testing will be undertaken on the Down Illawarra line and Down Refuge Loop between Sutherland and Helensburgh in accordance with the possession arrangements detailed in Special Train Notice No. 1361 – 2024.

A Qualified Worker must be provided to carry out the following:

- Obtain a Local Possession Authority in accordance with NWT 302 for the defined portion of track as shown in Special Train Notice No. 1361 – 2024.
- Come to a clear and proper understanding with the Train Crew in regard to the possession limits, the test area limits and all train operational requirements to carry out the testing.
- Ensuring that a Worksite Protection Marker and Railway Track Signals are placed at both ends of the Test Area limits prior to testing commencing.
- For any wrong direction movements, any facing points must be secured with a point clip and be locked unless the signal protecting the points can be cleared.
- Authorise the special train to run in both the Up and Down directions within the possession area as required.

During the testing, wherever possible the Driver should operate the train from the leading carriage in the direction of travel.

If a propelling movement is required as part of the testing, the movement must be conducted in accordance with NTR 424.

Note: A Special Proceed Authority (SPA) will not be required for a wrong direction movement within the limits of the LPA.

ENGINEERING WORK

During the possession NO fixed worksites, work trains or track vehicles will be permitted to traverse or occupy the Down Illawarra line and Down Refuge Loop between Sutherland and Helensburgh (unless associated with the testing) within the possession area.

No persons other than those associated with the train testing are permitted within the possession area.

TRACK POSSESSION 2

ATP train testing will be undertaken on the Up Illawarra line and Up Refuge Loop between Helensburgh and Sutherland in accordance with the possession arrangements detailed in Special Train Notice No. 1361 – 2024.

A Qualified Worker must be provided to carry out the following:

- Obtain a Local Possession Authority in accordance with NWT 302 for the defined portion of track as shown in Special Train Notice No. 1361 – 2024.
- Come to a clear and proper understanding with the Train Crew in regard to the possession limits, the test area limits and all train operational requirements to carry out the testing.
- Ensuring that a Worksite Protection Marker and Railway Track Signals are placed at both ends of the Test Area limits prior to testing commencing.
- For any wrong direction movements, any facing points must be secured with a point clip and be locked unless the signal protecting the points can be cleared.
- Authorise the special train to run in both the Up and Down directions within the possession area as required.

During the testing, wherever possible the Driver should operate the train from the leading carriage in the direction of travel.

If a propelling movement is required as part of the testing, the movement must be conducted in accordance with NTR 424.

Note: A Special Proceed Authority (SPA) will not be required for a wrong direction movement within the limits of the LPA.

ENGINEERING WORK

During the possession NO fixed worksites, work trains or track vehicles will be permitted to traverse or occupy the Up Illawarra line and Up Refuge Loop between Helensburgh and Sutherland (unless associated with the testing) within the possession area.

No persons other than those associated with the train testing are permitted within the possession area.

TRACK POSSESSION 3

ATP train testing will be undertaken on the Up and Down Illawarra line and Up and Down Refuge Loop between Sutherland and Helensburgh in accordance with the possession arrangements detailed in Special Train Notice No. 1361 – 2024.

A Qualified Worker must be provided to carry out the following:

- Obtain a Local Possession Authority in accordance with NWT 302 for the defined portion of track as shown in Special Train Notice No. 1361 – 2024.
- Come to a clear and proper understanding with the Train Crew in regard to the possession limits, the test area limits and all train operational requirements to carry out the testing.
- Ensuring that a Worksite Protection Marker and Railway Track Signals are placed at both ends of the Test Area limits prior to testing commencing.
- For any wrong direction movements, any facing points must be secured with a point clip and be locked unless the signal protecting the points can be cleared.
- Authorise the special train to run in both the Up and Down directions within the possession area as required.

During the testing, wherever possible the Driver should operate the train from the leading carriage in the direction of travel.

If a propelling movement is required as part of the testing, the movement must be conducted in accordance with NTR 424.

Note: A Special Proceed Authority (SPA) will not be required for a wrong direction movement within the limits of the LPA.

ENGINEERING WORK

During the possession NO fixed worksites, work trains or track vehicles will be permitted to traverse or occupy the Up and Down Illawarra line and Up and Down Refuge Loop between Sutherland and Helensburgh (unless associated with the testing) within the possession area.

No persons other than those associated with the train testing are permitted within the possession area.
