

Condition Affecting the Network (CAN)

Introduction

A Condition Affecting the Network (CAN) form is used to record reports about conditions that can or do affect the safety of operations in the Network.

The CAN form is also used by Signallers to give written warning to Drivers and Track Vehicle Operators as specified in the Network Rules.

Mandatory item

The following items must be completed:

- 1 CAN Number
-

Optional items

The following items are optional:

- 2 Report details
- 3 CAN block working
- 4 Active control level crossing
- 5 CAN restrain details
- 6 Other conditions and additional information
- 7 Issued by
- 8 Issued to

Condition Affecting the Network (CAN)

Item 2 – Report details

Use this part of the form to record the details about the CAN report.

Item 3 – CAN block working

If CAN block working is in operation, review each part of item 3 and:

- put a cross in the check box if the item has been considered but does not apply in this instance
- tick the check box if the item has been considered and does apply in this instance, and complete the details.

Block Posts

If block post locations have not been established, put a cross in the check box .

If block post locations have been established, tick the check box and complete the details.

Warning signs

If warning signs have not been used, put a cross in the check box .

If warning signs have been used, tick the check box and complete the details.

Condition Affecting the Network (CAN)

Signals at STOP

If authorisation is required to pass signals at STOP, put a cross in the check box .

If permission is given to pass signals at STOP without further authorisation:

- tick the check box
- detail the signals. The signals must not include signals used as a block post location, and
- give full details of the first operating signal to be obeyed.

Item 4 – Active control level crossings

Use this part of the form to give details about level crossing locations and the use of Handsignallers at level crossings.

Item 5 – CAN restrain details

Give brief and clear details about the CAN restrain requirements.

Item 6 – Other conditions and additional information

Use this part of the form to give information about other conditions such as:

- WOLO speed restrictions
- other speed restrictions
- location of Qualified Workers
- the length and location of disabled rail traffic.

Condition Affecting the Network (CAN)

Item 7 – Issued by

The Signaller issuing the CAN form must use the boxes provided to write:

- their name and location/panel details, and
- the time and date

Item 8 – Issued to

Signallers may use this part of the form to record that they have given the same warning to many Drivers or Track Vehicle Operators.

Effective date

29 April 2017
