PLATFORM 15 IN SYDNEY YARD BOOKED OUT OF USE AND HIGH RAIL ACCESS PAD AT PLATFORM 10 SYDNEY YARD

Since **Monday, 8 May 2017**, Platform road 15 has had an IBA on the points and signals leading into this road. They have been clipped and locked with XL locks. The signal also has an IBA implemented. Both IBA's are currently in force.

A concrete barrier has been placed over the track at the end of platform 15 road to stop any inadvertent movement down the road or into the road from a train. It also has a sign placed on it denoting the live and not live sections of track.

A new temporary hirail pad has been installed between 198 points and SY69 on Platform road 10 within Sydney Yard. It is a ballast pad until delivery of new rubber hirail pads. The ballast pad has been in use since 8 May 2017.

If your manuals do not have the correct status sheets, they have not been properly amended and the Safeworking information will not be up to date.

All Sydney Trains staff issued with Network Manuals and who require regular updates and amendments need to contact their relevant distribution officer, as listed in this Weekly Notice, to have their name and contact details included in the distribution list. This will ensure that you receive all updated Network Manuals and Forms.

All requests to receive Safeworking documentation must be forwarded through your controlling officer to the appropriate distribution officer.

Those outside Sydney Trains can access Safeworking information by visiting the RailSafe website at www.railsafe.org.au
