## WATERFALL SIGNAL BOX – TRIAL OF NON-LOCAL POSSESSION AUTHORITY TRACK ACCESS PRE-APPROVAL PROCESS

Commencing at 0001 hours on **Monday, 03 May 2021** and continuing until 0001 hours on Sunday, 30 May 2021, a work on track pre-approval trial will take place at Waterfall Signal Box.

We are relocating the pre-approval process trial from Campbelltown to a second location at Waterfall to ensure the process is robust and can be applied to other parts of the network for a greater variety and mix of request types.

- For the duration of the trial, all requests for work on track (excluding LPA) within the trial location will need to go through an approval process. The approval process will involve the assessment of requests for pre-approval considering safety, customer, operational and workload impacts. Worksite protection plans will need to be provided with all submissions as part of the pre-approval assessment process.
- Submissions will be made through the Access Pre-Advice System (APS).
- The acquisition of Corridor Safety Number (CSN) will be processed through the APS System.
- The trial and system does not replace or alter the existing processes/authorisation for work on track methods between a Protection Officer and Network Controller(s).
- All affected stakeholders will be briefed before commencement of the trial over the coming weeks.
- The proposed system will review the access request against the Daily Working Timetable and provides the best access opportunity available to the requestor.
- The process for Local Possession Authority track access is not affected and remains the same.
