Ensure the workers have been briefed about these work details

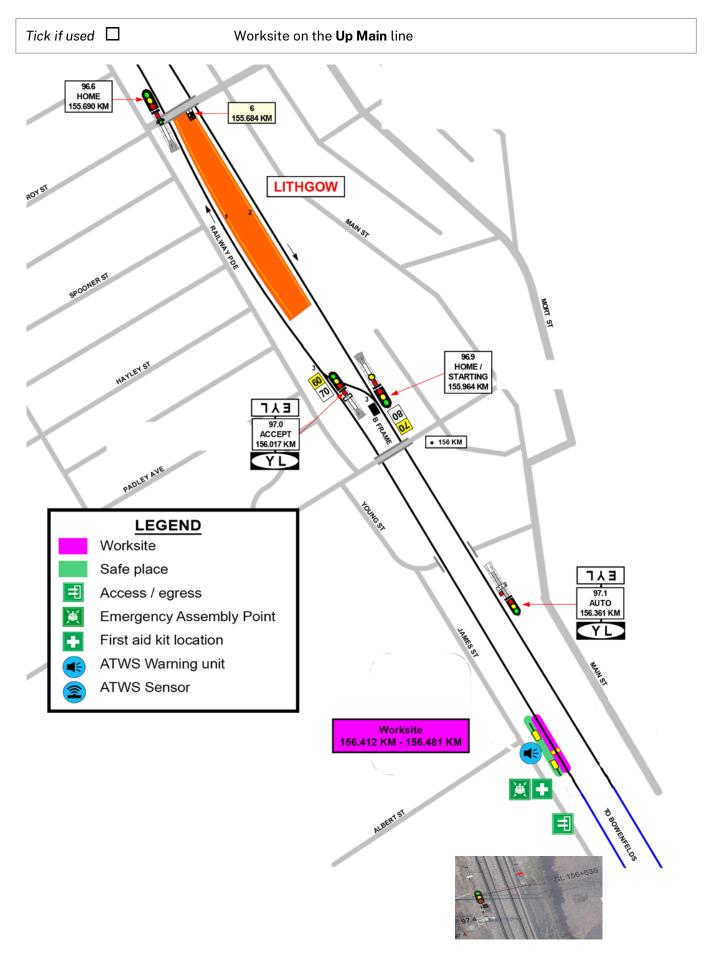

NOTE: Diagrams and instructions that follow form part of this worksite protection plan.

ATWS Check-sheet

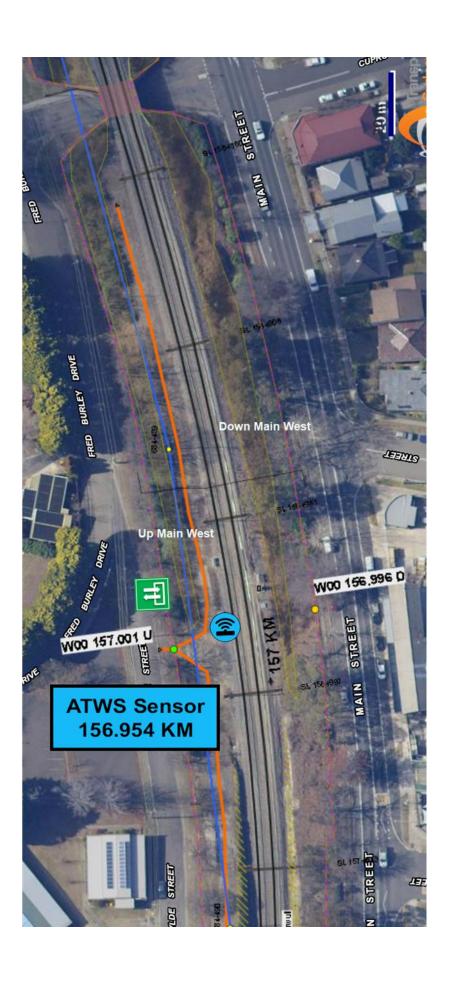

Planning
 1. How will the installed location of sensor(s) be verified? The PO will have direct line of sight to the sensor from the worksite location The installer will travel from the sensor location to the worksite location on the same side of track The ID no. of the first train will be verified between the operator and installer Train ID # observed:
Verified by installer:
Testing
 2. Record evidence of mandatory First Trains Tests: a. Record Train ID # or type of train observed for all sensors: b. Confirm mandatory first train tests are complete for all sensors installed (tick to confirm)
b. Confirm mandatory first train tests are complete for all sensors installed $\ \ \sqcup \ $ (tick to confirm) Pre-work Briefing
3. Identify potential stopping points affecting warning times:
Record any potential stopping points e.g. (stations or signals) between the sensor(s) and worksite which could cause variable warning times:
97.4 auto signal
Note: Factors affecting warning times should be highlighted to staff during the pre-work brief

Version: 1.0 Issue Date: 10/12/2025 Page 6 of 10

INSTRUCTIONS:	Workers enter the rail corridor via access gate W00 156.534 U .
	Use assets to validate worksite location on the Up Main line between 156.412 km to 156.481 km
	Conduct WP Pre-work briefing to set-up ATWS.
	Tell Signaller at Lithgow Yard Panel about the use of lookout working with ATWS.
Tick if used □	Access Up Cess 156.954 km, verify sensor label & connect to sensor cable, calibrate with test plate, connect and turn on the transmitter.
	Place warning system on same side of tracks if working on one track only within sight & hearing of workers, conduct siren & light self-test, & connect to transmitter(s).
	Record first rail traffic movement test for each sensor on ATWS Check-sheet.
	Conduct WP Pre-work briefing for lookout working with ATWS and confirm workers have seen and heard the warning.
	Start work when advised by the PO and move to the designated safe place when warned.
	When work is complete, and workers and equipment are in a safe place, turn off and pack up warning unit
Tick if used □	Access Up Cess to turn off and pack up transmitter unit(s).
	Access Up Cess Cess for all workers to leave the rail corridor via access gate W00 156.534 U .
	Tell Signaller at Lithgow Yard Panel when work is completed and the workers and their equipment are clear of the Danger Zone and End Lookout Working

Tick if used ☐ Position of ATWS transmitter and sensor on Up Main line at 156.954 KM
