

NSG 600 Running signals

Principle

Description

Not what you are looking for? See more [NSG 600 Running signals](#)

Principle

Running signals are used to authorise through-movements from one running signal to the next.

Running signals may be passed only in accordance with:

- [NSG 606 Responding to signals and signs](#), and
- [NSG 608 Passing signals at STOP](#).

The Figures in this Rule show examples of the running signals used in the Network.
