

NSG 606 Responding to signals and signs

Repeater signals

Description

Not what you are looking for? See more [NSG 606 Responding to signals and signs](#)

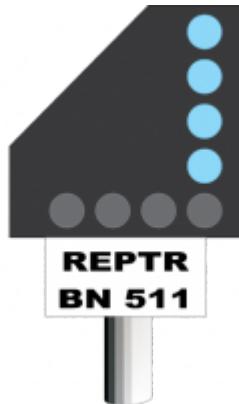

Repeater signals

Colour light repeater signals take the same form as colour light running or shunting signals.

The repeater signal might show a less restrictive indication than the repeated signal.

Indications displayed by other repeater signals used in the Network are:

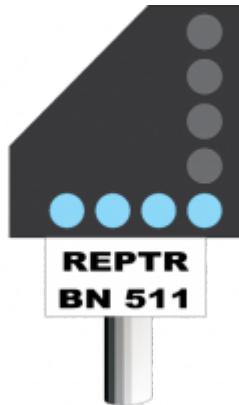

Repeater signal - LEDs

PROCEED. Next signal shows PROCEED.

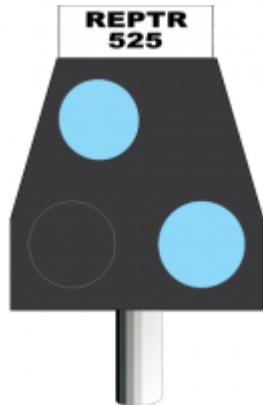

NSG 606 Responding to signals and signs

Repeater signals

PROCEED. Next signal shows STOP.

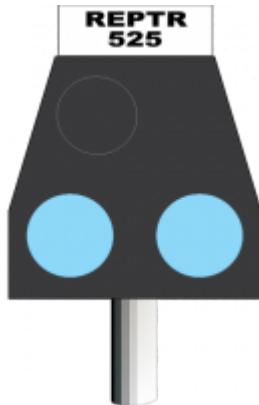

Repeater signal - position lights

PROCEED. Next signal shows PROCEED.

NSG 606 Responding to signals and signs

Repeater signals

PROCEED. Next signal shows STOP.
