

NSG 602 Shunting signals

Principle

Description

Not what you are looking for? See more [NSG 602 Shunting signals](#)

Principle

Shunting signals are:

- controlled signals, operated by Signallers or other Qualified Workers, and
- used to authorise shunting movements.

Shunting signals must be passed only in accordance with [NSG 606 Responding to signals and signs](#).

The Figures in this Rule show examples of the shunting signals used in the Network.
